SUMMARY

Focused, passionate and astute software engineer with outstanding interpersonal skills. Holding a decade of customer service experience and a showcase of software development prowess, this combination cements to provide full spectrum solutions and a viewpoint that considers apparent and “outside the box” angles.

SKILLS

HTML | CSS | JavaScript | Node | React | MongoDB | OOP | PostgreSQL | JSON | React Native | Web Accessibility | TDD

EXPERIENCE

Software Engineer

Oct. 2020 - Present

100devs | Los Angeles, CA

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured and accessibility-minded full stack web applications
- Applied agile methodologies like SCRUM for project management
- Published and maintained multiple code repositories with detailed, structured overview

Recent Projects:

Baseball Pitch Guesser (Full Stack Web App) – Provides users an array of live baseball games upon which to guess pitch type and location in the strike zone. Ingests data from an API on pitch-by-pitch basis displaying to the user where their selection matches up with the live game's play. Gives user a score based on guess accuracy. Supplies specific pitcher and batter information for heightened decision making.

Help Desk Specialist

Jul. 2019 - Present

The Ken Blanchard Companies | Escondido, CA

- Configured and maintained desktop, laptop and mobile device deployments for domain users on-prem and remote
- Resolved hardware, software and networking conflicts while supplying industry best practices and follow up to end users
- Provisioned and managed user application access, configuration and connectivity
- Configured endpoint VPN connections for users and implements network drive mapping scripts
- Supported 350+ users through email, phone, in-person and remote access tools

Key Accomplishments:

- Identified and remedied 8-month running domain-wide bug preventing user systems from booting as intended
- 2019 Rookie of the Year Finalist – award for best work by a new staff member
- Reduced end user system deployment time by 93% through use of SSDs and effective image management
- Successfully presented and conveyed to superiors the value of remote access tool to replace current solution resulting in increased feature set and breadth of remote-accessible operating systems

Shift Supervisor

Aug. 2012 – Jun. 2019

Starbucks Coffee Company | Solana Beach, CA

Anticipated needs for 650+ daily customers, delegated tasks to and led 17 partners to 1st in district for Customer Connections/Store Operations metric (Q1 2019). 3-time Partner of the Quarter – performance award for significant and measurable contributions.
